

Gokul Govindaraj

Frontend Engineer | <https://itsggokul.netlify.app>
+91-6384929988 | gokulgovindaraj44@gmail.com | Chennai, India

Profile Summary

Software Developer with **4+ years** of experience, specializing in **Angular(v10+)** and **Ionic(v5+)** for building scalable, high-performance web and mobile applications. Strong expertise in **TypeScript, JavaScript(ES6+), Angular Material, RxJS, NgRx, and REST API** integration. Proven ability to deliver clean, maintainable code, optimize UI performance, and collaborate effectively in Agile/Scrum environments.

Technical Skills

- **Frontend & Mobile:** Angular(v10+), Ionic Framework(v5+), TypeScript, JavaScript(ES6+), HTML5, CSS3, Angular Material, Bootstrap, Tailwind CSS, Responsive Web Design
- **Architecture & State Management:** Component architecture, services, modules, routing, lazy loading, change detection; RxJS, NgRx
- **Testing & Quality:** Unit Testing(Jasmine, Karma), Debugging, Code Reviews, Clean Code Practices
- **Integration & Build:** RESTful APIs; Jenkins, CI/CD Pipelines
- **Version Control & Collaboration:** Git, Bitbucket, Agile/Scrum
- **Performance & UX:** Performance Optimization, Cross-Browser Compatibility, UI/UX Best Practices
- **Tools & IDEs :** Visual Studio Code, IntelliJ IDEA, WebStorm, Android Studio, Xcode

Work Experience

Frontend Engineer – Care2Data Private Limited, Chennai	Dec 2025 – Apr 2026
---	----------------------------

Worked as a Developer building scalable web applications for **Clinical Data quality** and **Validation platforms**. Focused on developing responsive Angular-based UI, integrating APIs, and collaborating with cross-functional teams in an Agile environment.

Software Developer – Careworx Healthcare Private Limited, Chennai	Jun 2022 – Aug 2025
--	----------------------------

Designed and developed user-friendly UI for IoT-based platforms supporting **Medical** and **Industrial applications**. Built and maintained core modules such as **LMS, EHS, and Digital ICU**. Developed cross-platform web and mobile applications using Angular and Ionic for Android and iOS, implementing modular architecture, lazy loading, and performance optimizations. Managed application state using RxJS and NgRx, integrated RESTful APIs, performed unit testing, and collaborated with UI/UX designers and backend teams in an Agile environment.

Software Developer – Scentric Networks Private Limited, Chennai	Jan 2022 – Jun 2022
--	----------------------------

Developed responsive and accessible web pages using HTML, CSS, Javascript and Bootstrap, ensuring consistent UI and optimal user experience across multiple devices and browsers. Focused on cross-browser compatibility and responsive design best practices to deliver reliable and user-friendly interfaces.

Project Experience

E-Learning Platform

- Developed and maintained responsive web interfaces for an **E-Learning** Platform using **HTML**, **CSS**, **JavaScript** and **Bootstrap**.
- Implemented responsive layouts ensuring compatibility across **desktop**, **tablet**, and **mobile devices**.
- Ensured cross-browser compatibility and consistent UI behavior across modern browsers.
- Collaborated with backend and design teams to integrate requirements and deliver user-friendly learning features.

IoT Platform

- Designed and developed responsive web interfaces for **IoT-based industrial applications** using Angular, **TypeScript**, HTML, CSS, **Tailwind CSS** and **Angular Material**.
- Developed reusable and modular UI components using Angular, implementing routing, lazy loading, reactive forms, and RxJS.
- Integrated RESTful APIs and implemented data visualization using **Fusioncharts** and **Apache ECharts** to display IoT data through interactive charts and dashboards.
- Optimized application performance and responsiveness across devices while collaborating with **UI/UX designers**, **backend developers** and **QA teams** in an **Agile** environment.

Healthcare Platform

- Developed and enhanced **healthcare** modules such as **Digital ICU** focusing on usability, accessibility, and smooth application workflows.
- Built cross-platform **mobile applications** using **Ionic Angular** and **Capacitor** for **Android** and **iOS**, along with responsive **web applications** using Angular.
- Implemented healthcare workflows, forms, validations, dashboards, and reusable components while integrating **RESTful APIs** for data communication between frontend and backend systems.
- Worked on **RxJS**, **NgRx**, unit testing, debugging, and **performance optimization**, collaborating with UI/UX, backend and QA teams throughout the development lifecycle.

Clinical Data Quality and Validation Platform

- Built reusable Angular components, integrated RESTful APIs, and converted existing UI designs from **Bootstrap** to **Tailwind CSS** for improved flexibility and maintainability.
- Performed unit testing using **Jasmine** and **Karma**, including writing, executing, and debugging test cases to improve application reliability.
- Used **AI-assisted** tools for creating and improving **test cases**, identifying test scenarios, and enhancing **test coverage** while working in an Agile environment.

Education

B.Sc Data Science

Nehru Memorial College, Puthanampatti – Tiruchirappalli

Jun 2018 – Apr 2021

Additional Information

Certifications: Great Learning – HTML, CSS, MySQL, Excel, Ecommerce Website with HTML & CSS

Soft Skills: Problem-solving, analytical thinking, adaptability, teamwork, continuous learning
